

## SU0001 MesenPlify™ sXF Supplement

---

This SDS documents the detailed information for safe handling and use of products.

### A. Basic Information/ Identification of Material

<b>Category</b>	Supplement
<b>Product Name</b>	<b>MesenPlify™ sXF Supplement</b>
<b>Product Type</b>	Liquid
<b>Catalogue Number</b>	SU0001

#### Recommended and Restricted Use

The media shall be used for research. Not use for diagnostic nor clinical use.  
Used with Basal media InnoDMEM™ for complete media.

#### Supplier/ Manufacturer

[Singapore]  
InnoCellular Tech Pte Ltd.

Main Laboratory  
Block 79 Ayer Rajah Crescent  
#05-03, Singapore 139955

### B. Hazards Identification

**This material contains processed biological materials from human donors.**

#### OSHA/HCA

This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

#### Classification of the substance or mixture

Not Classified.

#### Hazards not otherwise classified

Not known

#### GHS Label

<b>Signal word</b>	No Signal Word.
<b>Hazard Statements</b>	No known significant effects or critical hazards.

#### Precautionary Statements

<b>Prevention</b>	Not Applicable.
-------------------	-----------------

## SU0001 MesenPlify™ sXF Supplement

---

<b>Response</b>	Not Applicable.
<b>Storage</b>	Not Applicable.
<b>Disposal</b>	Not Applicable.

### C. Composition and Information on Ingredients

<b>Substance/mixture</b>	Mixture	
<b>Other means of identification</b>	Not available	
<b>CAS Number/Other Identifiers</b>	<b>EC Number</b>	<b>Chemical Formula</b>
Not Applicable.	Mixture	Not Applicable.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

We recommend handling all chemicals with caution.

### D. First Aid Measures

#### **Description of Necessary First Aid Measure**

**Eye Contact.** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Skin Contact.** Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Immediate medical attention is not required.

**Inhalation.** Not expected to be an inhalation hazard under anticipated conditions of normal use of this material. Consult a physician if necessary.

**Ingestion.** Not expected to present a significant ingestion hazard under anticipated conditions of normal use. Drink water. If you feel unwell, seek medical advice.

#### **Most Important Symptoms and Effects, both Acute and Delayed**

##### **Potential Acute Health Effects:**

<b>Eye Contact</b>	No known significant effects or critical hazards.
<b>Skin Contact</b>	No known significant effects or critical hazards.
<b>Inhalation</b>	No known significant effects or critical hazards.
<b>Ingestion</b>	No known significant effects or critical hazards.

##### **Over-Exposure Signs/Symptoms:**

<b>Eye Contact</b>	No specific data.
<b>Skin Contact</b>	No specific data.
<b>Inhalation</b>	No specific data..
<b>Ingestion</b>	No specific data.

#### **Indication of immediate medical attention and special treatment needed, if necessary**

---

## SU0001 MesenPlify™ sXF Supplement

---

**Notes to physician**

Treat symptomatically

**Specific Treatment**

No specific treatment.

**Protection of First-Aiders**

No action shall be taken involving any personal risk or without suitable training.

### E. Fire Fighting Measures

**Extinguishing media****Suitable extinguishing media**

Water spray. Carbon dioxide (CO<sub>2</sub>). Foam. Dry chemical.

**Unsuitable extinguishing media**

None known.

**Specific hazards arising from the chemical**

In a fire or if heated, a pressure increase will occur, and the container may burst.

**Hazardous thermal decomposition products**

No specific data.

**Special protective actions for fire-fighters**

Standard procedure for chemical fires.

**Special protective equipment for fire-fighters**

Fire-fighters should wear appropriate personal protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### F. Accidental Release Measures

**Personal precautions, protective equipment, and emergency procedures**

Ensure adequate ventilation. Always wear recommended Personal Protective Equipment. Use personal protection equipment.

**Environmental precautions** .

No special environmental precautions required.

**Methods and materials for containment and cleaning up****Small spill**

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water soluble.

## SU0001 MesenPlify™ sXF Supplement

---

Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

### Large spill

Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations(see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section A for emergency contact information and Section M for waste disposal.

## G. Handling and Storage

### Precautions for safe handling

#### Protective measures

Put on appropriate personal protective equipment.

#### Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

#### Conditions for safe storage, including any incompatibilities

Store between the following temperatures: -20°C. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

## H. Exposure Controls and Personal Protection

### Control parameters

#### Occupational exposure limits

None.

#### Appropriate engineering controls

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

#### Environmental exposure controls

No special environmental precautions required.

### Individual protection measures

#### Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

## SU0001 MesenPlify™ sXF Supplement

---

### Eye/face protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

### Skin protection

#### Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

#### Body protection

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### Other skin protection

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### Respiratory protection

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## I. Physical and Chemical Properties

### Appearance

<b>Physical state</b>	Liquid.
<b>Colour</b>	Translucent.
<b>Odor</b>	Not Available.
<b>Odor threshold</b>	Not Available.
<b>pH</b>	Not Available.
<b>Melting point/freezing point</b>	Not Available.
<b>Boiling point, initial boiling point, and boiling range</b>	Not Available.
<b>Flash point</b>	Not Available.
<b>Burning time</b>	Not Applicable.
<b>Burning rate</b>	Not Applicable.
<b>Evaporation rate</b>	Not Available.
<b>Flammability</b>	Not Available.
<b>Lower and upper explosive (flammable) limits</b>	Not Available.
<b>Vapor pressure</b>	Not Available.
<b>Relative vapor density</b>	Not Available.
<b>Relative density</b>	Not Available.
<b>Solubility(in other solvents)</b>	Not Available.

## SU0001 MesenPlify™ sXF Supplement

---

<b>Solubility in water</b>	Not Available.
<b>Partition coefficient</b>	Not Available.
<b>Auto-ignition temperature</b>	Not Available.
<b>Decomposition temperature</b>	Not Available.
<b>SADT</b>	Not Available.
<b>Viscosity</b>	Variable, gel formation may occur due to clotting factors.
<b>Flow time (ISO 2431)</b>	Not Available.

### J. Stability and Reactivity

#### Reactivity

No specific test data related to reactivity available for this product or its ingredients.

#### Chemical stability Possibility of hazardous reactions

The product is stable.

#### Possibility of hazardous reactions

None under normal conditions of storage and use.

#### Conditions to avoid

None known based on information supplied.

#### Incompatible materials

None known based on information supplied.

#### Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### K. Toxicology Information

#### Information on toxicological effects

<b>Acute toxicity</b>	Not available.
<b>Irritation/Corrosion</b>	Not available.
<b>Sensitization</b>	Not available.
<b>Mutagenicity</b>	Not available.
<b>Carcinogenicity</b>	Not available.
<b>Reproductive toxicity</b>	Not available.
<b>Teratogenicity</b>	Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

#### Information on the likely routes of exposure

Routes of entry anticipated: Oral, Dermal.

#### Potential acute health effects

## SU0001 MesenPlify™ sXF Supplement

---

<b>Eye contact</b>	No known significant effects or critical hazards
<b>Skin contact</b>	No known significant effects or critical hazards.
<b>Inhalation</b>	No known significant effects or critical hazards
<b>Ingestion</b>	No known significant effects or critical hazards

### Symptoms related to the physical, chemical, and toxicological characteristics.

<b>Eye contact</b>	No specific data.
<b>Skin contact</b>	No specific data.
<b>Inhalation</b>	No specific data.
<b>Ingestion</b>	No specific data.

### Delayed and immediate effects and also chronic effects from short- and long-term exposure

#### Short term exposure

<b>Potential immediate effects</b>	Not available.
<b>Potential delayed effects</b>	Not available.

#### Long term exposure

<b>Potential immediate effects</b>	Not available.
<b>Potential delayed effects</b>	Not available.

#### Potential chronic health effects

Not available

<b>General</b>	No known significant effects or critical hazards.
<b>Carcinogenicity</b>	No known significant effects or critical hazards.
<b>Mutagenicity</b>	No known significant effects or critical hazards.
<b>Teratogenicity</b>	No known significant effects or critical hazards.
<b>Developmental Effects</b>	No known significant effects or critical hazards.
<b>Fertility Effects</b>	No known significant effects or critical hazards.

#### Numerical measures of toxicity

<b>Acute toxicity estimates</b>	Not Applicable.
---------------------------------	-----------------

### L. Ecological Information

<b>Toxicity</b>	Not available.
<b>Persistence/Degradability</b>	Not available.
<b>Bioaccumulative Potential</b>	Not available.
<b>Mobility in Soil</b>	
Soil/Water Partition Coefficient (Koc)	Not available.
<b>Reproductive toxicity</b>	Not available
<b>Other adverse effects</b>	No known significant effects or critical hazards.

### M. Disposable Considerations

#### Disposal Methods

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions

---

### N. Transport Information

**SU0001 MesenPlify™ sXF Supplement**

---

and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers

<b>UN</b>	Not regulated.
<b>IATA</b>	Not regulated.
<b>IMDG</b>	Not regulated.
<b>ADR/RID</b>	Not regulated.
<b>ADN</b>	Not regulated.

**Special precautions for users**

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**O. Regulatory Information****Singapore - hazardous chemicals under government control**

None.

**International regulations:****Chemical Weapon Convention List Schedules I, II & III Chemicals**

Not listed.

**Montreal Protocol**

Not listed.

**Stockholm Convention on Persistent Organic Pollutants**

Not listed

**Rotterdam Convention on Prior Informed Consent (PIC)**

Not listed

**UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

**International List**

National inventory

Europe	Not Determined.
United States	Not Determined.
Canada inventory	Not Determined.
China	Not Determined.
Malaysia	Not Determined.
